

# FILJUMAR JUMAMOY (FULL-STACK WEB DEVELOPER)

## Contact

- **Location:** Inabanga Bohol, Philippines 6332
  - **Phone:** (+63) 999-459-7038
  - **Email:** devfiljumar@gmail.com
- 

## SKILLS

### Frontend Development

- **Languages & Libraries:** HTML5, CSS3, SCSS/SASS, JavaScript (ES5/ES6), TypeScript, jQuery, VueJs, ReactJs, NextJs, MUI, Bootstrap, MUi
- **Tools:** Gulp, Wordpress, Strapi, AI & Photoshop (Web Design Tools)
- **Best Practices:** Mobile Responsive & Cross-Browser Compatibility

### Backend Development

- **Languages & Frameworks:** PHP, Laravel, CodeIgniter
- **Databases:** MySQL
- **APIs:** RESTful API
- **CMS & Headless:** Strapi (Headless CMS), Wordpress
- **DevOps & Logging:** C-Panel, AWS (logs), Graylogs

### Testing & Best Practices

- **Testing:** Unit Testing with PHPUnit, E2E Testing with Cypress
- **Methodology:** Clean Code Principles, Code Refactoring, Agile workflow (JIRA)

### DevOps & Tools

- **Version Control:** Git, GitHub, GitLab, BitBucket
- **File Transfer:** FileZilla

### Soft Skills

- Adaptability
- Team Collaboration
- Problem-solving mindset

# EXPERIENCE

## Full-stack Web Developer

**1210 Services Inc.** | JUNE 2023 – CURRENT

**Summary:** Serving as a full-stack web developer, focusing on the maintenance and progressive enhancement of web applications. I collaborate with diverse teams to introduce new features, perform unit testing for code quality, and contribute to strategic improvements across projects.

### Responsibilities:

- Maintained and optimized existing projects/features to ensure peak performance, stability, and scalability.
- Designed and implemented new features to enhance user experience and overall application functionality.
- Collaborated with cross-functional teams to identify, plan, and execute enhancements for existing systems.
- Developed modern, high-performance web applications using JavaScript frameworks (React, Next.js).
- Built responsive, accessible, and cross-browser-compatible user interfaces with a focus on performance.
- Conducted code reviews, mentored peers, and contributed to establishing and improving frontend best practices.

## Full-stack Web Developer

**DIGITALTOLK** | OCT 2021 – MAY 2023

**Summary:** Played a pivotal role as a full-stack web developer, contributing to the maintenance and enhancement of existing projects while also spearheading the development of new features. I actively engaged in unit testing to ensure the reliability and quality of our applications. Additionally, I took ownership of assigned projects, leveraging my expertise to drive their successful execution and deliver impactful solutions to meet business objectives.

### Responsibilities:

- Maintained existing projects/features, ensuring their continued functionality and performance.
- Developed new features to enhance the functionality and user experience of web applications.
- Conducted unit testing to identify and address any issues or bugs in the codebase.

- Led the development of assigned projects, from conceptualization to implementation, meeting project timelines and requirements.
- Collaborated with cross-functional teams to identify opportunities for the enhancement of existing projects/features.

## Web Developer

**NABEPERO** | JUN 2020 – OCT 2021

**Summary:** Played a key role in the development and enhancement of existing projects and features. I was actively involved in unit testing and end-to-end (E2E) testing processes to ensure the reliability and robustness of our web applications. Additionally, I contributed to code refactoring initiatives and participated in code reviews to maintain code quality and adherence to best practices.

### Responsibilities:

- Developed and modified existing projects/features, implementing changes to meet evolving business requirements.
- Conducted thorough unit testing to validate the functionality and stability of the codebase.
- Performed end-to-end (E2E) testing to simulate real-world user scenarios and identify any issues or potential improvements.
- Led code refactoring efforts to optimize code structure, improve readability, and enhance maintainability.
- Participated actively in code reviews, providing constructive feedback and ensuring compliance with coding standards and best practices.

## Full-stack Web Developer

**ZEROTEN** | FEBRUARY 2018 – MAY 2020

**Summary:** Specialized in converting PSD/AI designs into custom WordPress websites, ensuring seamless integration of design elements and functionalities. I played a vital role in the development cycle, actively participating in all stages of project development. Additionally, I was responsible for implementing and customizing plugins, modifying existing WordPress websites and plugins, and ensuring cross-browsing compatibility across various devices.

### Responsibilities:

- Converted PSD/AI design files into custom WordPress websites, maintaining design fidelity and functionality requirements.
- Searched for and implemented WordPress plugins to enhance website features and functionality, customizing them as needed to meet project specifications.

- Actively participated in the development cycle, collaborating with designers, project managers, and other stakeholders to ensure project success.
- Modified existing WordPress websites and plugins to accommodate new requirements or address issues, optimizing performance and user experience.
- Ensured cross-browsing compatibility across different devices and web browsers, conducting thorough testing and implementing necessary adjustments for optimal user accessibility.

## **Junior Web Developer**

**QUBETEK** | MARCH 2016 – JANUARY 2018

**Summary:** Actively participated in the overall web development cycle, gaining valuable experience across various stages of project development. I was responsible for database management, ensuring data integrity and efficient data retrieval for web applications. Additionally, I contributed to the development and maintenance of existing features, learning and growing within a collaborative team environment.

### **Responsibilities:**

- Participated in the overall web development cycle, collaborating with senior developers and stakeholders to contribute to project success.
- Managed databases to ensure data integrity and efficient data storage and retrieval, utilizing SQL or other database management systems.
- Developed and maintained existing features of web applications, implementing changes and enhancements as required.
- Engaged in continuous learning and skill development, leveraging opportunities to expand knowledge and proficiency in web development technologies and practices.

## **Web Developer**

**AGORRA CREATIVE** | JUNE 2015 – FEBRUARY 2016

**Summary:** Actively contributed to the overall web development cycle, gaining exposure to various facets of project development. My responsibilities included database management to uphold data integrity and streamline data operations. Additionally, I played a key role in maintaining existing features and ensuring cross-browsing compatibility across devices, enhancing user accessibility and experience.

### **Responsibilities:**

- Participated in the overall web development cycle, collaborating with colleagues to deliver high-quality web solutions that met client requirements and expectations.
- Managed databases to maintain data integrity and optimize database performance, ensuring efficient data retrieval and storage.
- Maintained existing features of web applications, troubleshooting issues and implementing enhancements to improve functionality and user experience.
- Ensured cross-browsing compatibility across devices and web browsers, conducting thorough testing and implementing necessary adjustments for seamless user interaction.

## EDUCATION

- **University of San Carlos** (Batch 2016)
  - CCT – Major in Software Development
